

Clean Drain Dry

Nick Wong

Research and Projects Coordinator

Goal: *Prevent the spread of aquatic invasive plants, animals and micro-organisms to BC waters.*

2012

Pilot program with 12 regional invasive species committees sharing messaging with boaters at key boat launches across BC.

2013

In partnership with 5 regional invasive species committees sharing messaging with boaters at high risk regional boat launches and at education/outreach events.

2014

Delivered through the Clean Drain Dry Ambassador program. Strategic partnerships with 2 provincial and 5 regional stewardship groups sharing messaging with public at education and outreach events.

2015

Continued delivery through the Clean Drain Dry Ambassador program. Strategic partnerships with provincial and 4 regional stewardship groups sharing messaging with public at education/outreach events.

To shift the behaviour of boaters and aquatic recreationists by encouraging the practice of Clean, Drain and Dry in order to prevent the introduction of aquatic invasive species

ATTENTION
Invasive species
impact our waters

Once you leave the water...

CLEAN	DRAIN	DRY
plants, animals and mud from boat and gear	all water from boat and gear onto land	all parts of your boat and gear completely

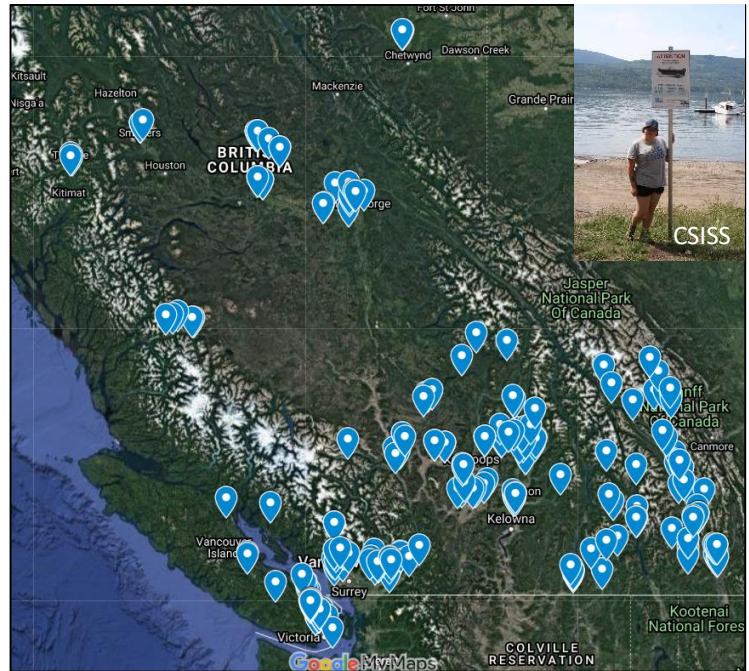

Report Algae or Quagga mussel sightings to the R.A.P.P. Hotline 1-877-952-7277
For more information: CleanDrainDry.ca
