

Healthy Habitat Hero Bingo

H	E	R	O
Take a rainy day watershed walk and listen to water.	Read a story about an animal that lives in the water.	Tell a friend or family member how they can help stop invasive species spreading by practicing Clean Drain Dry.	Play 'Know Me, Know My Adaptations' with aquatic native and invasive species.
Name and sketch an aquatic species native to BC.	Tell a friend a fun fact about aquatic invasive species.	Close your eyes and imagine you are in a kayak on a lake. Think of things you could feel, hear, smell and see.	Draw a healthy aquatic ecosystem. Choose an invasive species and talk about what would happen if it took over.
Use buckets of water, sprinkle one with herbs. Play with boats in both to show the spread of invasive species	Learn 2 ways wetlands help our environment.	Tell a friend about a cool animal adaptation that allows them to survive in the water	Draw a Don't Let it Loose poster about not releasing pets from an aquarium into the wild.
Write a poem or short story about a lake or river that is important to you.	Name a way you can help protect our lakes and rivers.	Draw an Un-Wanted Poster of an invasive species that can take over aquatic ecosystems.	Learn about an aquatic species important to indigenous communities.
